**Point of Care**
**Glucose Testing**

**Unit:** **Ward 86** **Date:** **5/28/2013**

Diane Jones RN

Diane Jones, RN
Acting Nurse Manager
Ward 86/PHP

C. Bradley Hare, MD
Medical Director
Ward 86/PHP

1. Clinical **Indications:**
   a. Screening – to determine if the patient is hypoglycemic or hyperglycemic
   b. Diagnostic – to adjust insulin dosing for a patient with serum glucose dysfunction

2. **Documentation:**
   The Registered Nurse or the Clinician will document the results of the Glucose testing in the patient's electronic medical record at the time of testing

3. Clinical **Actions:**
   All individual patient Point of Care blood glucose results will be reviewed by the ordering Care Provider at the time the fingerstick is performed to determine any further clinical action.
