Point of Care Testing: Hemoglobin by HemoCue

UNIT: Women's Options (6G)

Date: 3/3/2020

Eleanor Drey, MD

Medical Director, 6G

Barbara Haller, MD, PhD

Director, Clinical Laboratory

Clinical Indication

- Any patient scheduled for abortion or when test is requested by a provider

Documentation

- Document test order and results with patient identification, provider identification and provider notifications in the POCT Testing Unit Log as well as in the electronic medical record.

Clinical Action

- Follow up will be individualized and initiated by the provider. With a hemoglobin less than or equal to 9.5 g/dL, the patient will be given a prescription for FeSO<sub>4</sub>.
