

**Point of Care Testing: Glucose (waived)**

**UNIT: Neonatal ICU**

**Date:** 1/15/20

Cindy Tran, MD  
NICU Medical Director

Barbara Haller, MD, PhD  
Director, Clinical Laboratory

Shilu Ramchand  
Nurse Manager

**Clinical Indication**

- This is a screening and diagnostic test for non-ICN infants (well-baby, semi-ICN with known normal glucose) admitted in the ICC to determine serum blood glucose. This will also determine if infant hypo/hyperglycemic state.

**Documentation**

- All normal and abnormal results are documented in the patient's medical record.

**Clinical Action**

- If results are not within reference range, refer to the physician. Refer to ICC policy 3.8.8 for guidelines/protocol for abnormal result.
